

Health Risk Assessment

Smarter solutions for improved risk stratification and prevention, customer engagement and outstanding brand trust.

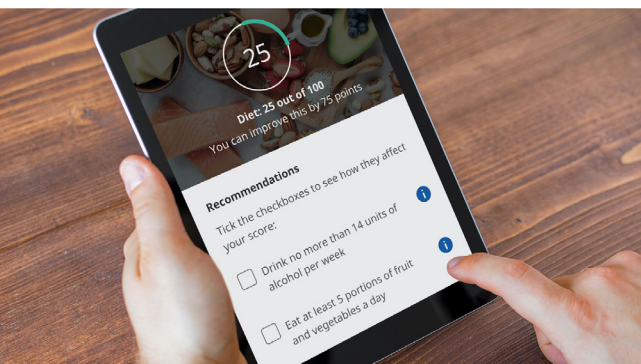

What is Health Risk Assessment?

Doctorlink's health and wellbeing Health Risk Assessment (HRA) is the solution of choice for health insurers and providers who want to achieve improved risk stratification and prevention, customer engagement and outstanding brand trust.

The most meaningful and clinically robust solution in the field, we have re-engineered HRA using advanced mathematics, the latest research and advanced expert system technology to create a superior user experience and generating real value to the organisation.
